- Game times will remain the same for all 6 weeks.

Why small sided games?

It is the opinion of US Youth Soccer, the governing body of youth soccer in the US, that players receive greater benefits from playing small sided games as opposed to "big games". Players should play small sided games because:

- More emphasis placed on skill and understanding than fitness
- More opportunities to be technically and tactically successful
- Players are regularly involved in attack and defense
- Players are more likely to be actively engaged in the game
- Players repeatedly experience similar tactical situations
- Players have more opportunities to experience all positions

Pinnacle Sports will be integrating character training into all soccer programs through Coaching 4 Life
